PROFESSIONAL SUMMARY

AI and Data Science undergraduate (CGPA 8.15/10) who builds intelligent systems end to end, from LLM-powered software to sensor-driven edge hardware. Experience across corporate consulting and university research has built a practical habit of turning open-ended problems into working solutions. Backed by industry certifications in generative AI, data architecture, and cloud, and seeking AI Engineer or Agentic AI roles where software intelligence meets real-world deployment.

TECHNICAL SKILLS

AI & LLM Engineering: Agentic AI, Multi-Agent Orchestration, Large Language Models (LLMs), Generative AI, Prompt Engineering, LangChain, LangGraph, CrewAI, Claude Sonnet, Google Gemini

Programming & APIs: Python, FastAPI, REST API Design & Integration, Machine Learning, Data Science, Data Analytics

Cloud & Enterprise Platforms: AWS (EC2, Lambda, Bedrock, S3, IAM), Google Cloud Platform (GCP), SAP Business Data Cloud, SAP Generative AI

Voice AI: Speech-to-Text (STT), Text-to-Speech (TTS), Voice Recognition, LiveKit Agents

Embedded Systems & IoT: STM32, ESP32, Raspberry Pi, Embedded Linux, Edge AI, Real-Time Data Acquisition, Robotics & Automation

PROFESSIONAL EXPERIENCE

Deloitte Touche Tohmatsu India LLP (PAID)

Jun 2026 – Sep 2026

Engineering AI & Data Intern, Technology & Transformation (T&T) | T. Nagar, Chennai

- Designed and developed a minimum viable product (MVP) for the Application Discovery Platform (ADA), using LangChain and LangGraph to build a multi-agent AI system for repository analysis, architecture discovery, dependency analysis, security assessment, and automated technical reporting.
- Implemented an Application Discovery Agent that accepts a GitHub repository and generates a discovery document from source code and project artifacts, identifying application information available without interviews or manual analysis.
- Holding LOR from Deloitte which Bonafide my works and responsibilities during the period of internship

Indian Institute of Technology Ropar (IIT Ropar) IHUB AWADH-TIF

Feb 2026 – Present

Undergraduate Intern, Cyber-Physical Systems (CPS) Lab | HITS Campus, Chennai

- Work on the design and integration of AI-driven IoT and robotics systems as part of the lab's ongoing research.
- End to End prototype and product build using NRF52 BLE NODES , ESP ,RASP PI & SENSORS

TECHNICAL PROJECTS

Application Discovery Agent | Python, LLMs, Multi-Agent Systems

Jun 2026 – Aug 2026

- Agentic tool submitted to Deloitte that turns source code into dependency maps, compliance reports, and topology blueprints.

Jarvis AI Voice Assistant | Raspberry Pi 3B+, LiveKit Agents, Google Gemini

Jun 2025 – Sep 2025

- Built a real-time voice assistant by connecting the LiveKit Agents framework to the Google Gemini cloud LLM.
- Set up Speech-to-Text (STT) and Text-to-Speech (TTS) pipelines for low-latency voice interaction on edge hardware.

Real-Time Air Quality Monitoring System | STM32, ESP32, Raspberry Pi

Jan 2026 – Feb 2026

- Collected high-frequency environmental sensor data and combined it with Windy weather forecasts for more informed predictions.

CERTIFICATIONS

Claude: Claude Certified Associate – Foundations (CCAO-F); Claude Certified Architect – Foundations (CCAR-F); Claude Certified Architect – Professional (CCAR-P); Claude Certified Developer – Foundations (CCDV-F)

SAP: SAP Certified – Data Architect – SAP Business Data Cloud(C_BDCDA) ; SAP Certified – SAP Generative AI Developer (C_AIG_2604)

Google Cloud: Google Cloud Engineering (GCP)

Deloitte: AI Expert Skill Badge; Data Analytics Skill Badge

EDUCATION

Hindustan Institute of Technology and Science (HITS), Chennai

2024 – 2028 (Expected)

B.Tech, Computer Science & Engineering (Artificial Intelligence & Data Science) | CGPA 8.15/10 (through 4th semester)

Velammal Vidhyashram, Chennai

2024

Higher Secondary (12th Grade, MPCC) | 75%

LEADERSHIP & ACTIVITIES

AWS Cloud Club, HITS Campus – Technical Team Member

Feb 2026 – Present

- Help decide the technical stack and plan cloud initiatives for the club on AWS EC2 ,S3,LAMBDA, SAGEMAKER AI

AI-ROBOTICS & EMBEDDED self employed projects

- Build projects integrated with ml logics and ai features on embedded systems and microprocessors
